I worked with Ring today to format all of our media announcements regarding our involvement in the Neighbors portal. I posted announcements on Twitter, NextDoor and Instagram. I did not do a media announcement through email because it's really a local matter between us and our residents. I was also able to send three announcements through the Neighbors portal directly to all ring users. These announcements are regional and do not go city wide yet so I centered them around the PD, City Hall and the mills. I have attached a snapshot of one of the posts. We have no way of viewing the post after they are sent without contacting Ring.

Fun fact. Every time someone comments back, I get an email. 5 emails have come in while typing this out. Make that 6.

To: Jason Langford <JLangford@ontariopolice.org>

Hi Lt Langford,

Thank you for your call! I look forward to meeting everyone tomorrow at the agency.

For all the other users that will need access to Portal, can you please fill out the tab "All other users"? If you go ahead and do that, I could add them all in for you. If you need to add any users in the future, it is fairly easy to add them. You just click on Admin tools at the top right after you log in, then click Manage Users >> Add User.

Hi Lt Langford,

Thanks for your call.

For the in person training, I have the following days available so far. I will typically hold two sessions in a day typically one in the morning from 10am-11am, and one at 11:30-12:30pm, please let me know what times would work best for you and your staff. Feel free to send out the PR announcements to match up to the date of the training.

Thursday 9/12

Wednesday 9/25

Also, I just want to check in to see if there was any change to the map or assigned area to be drawn for your Portal:

c) Beats Map: If you decide that assigning each user to a beat/assigned area would be appropriate, please send over a beats map (PDF, Shapefile, or ESRI files are fine as long as highways, street names are clear so we could draw the boundaries) so that we can create them for your Portal so that your users can assign themselves to a district. When a user assigns themselves to a beat, they will receive email alerts whenever a "Neighbor" posts a crime in that beat.

Subject: Ring Pre-Onboarding Call Recap - Elk Grove PD

Hi Sgt Russell,

Very nice speaking with you today. Below is a recap of what we spoke on and the few action items I need.

1. 45 min Stakeholders Webinar (The Soft Launch Phase) : This is me "training the trainers" to get the stakeholders to understand the Ring Portal so they can determine the best way to roll out the tool within their units. We suggest that 1-2 reps from each group below attend this webinar as they will be the go-to person if anyone within their units have questions. They will also be the early adopters who can start using the Portal after the webinar so they could speak about their use case/experience with the Portal and perhaps share success stories (if any) during the in person training. Can you please suggest a few dates/times within the next week or two?

a) Community Outreach: Community Service Officer/Community resource officer, those who attend HOA neighborhood watch meetings

b) PIO/Social Media Committee

c) Investigations/detectives

d) Crime analysts

e) Road Patrol Officers

2. 45 min In Person Training (The Hard Launch Phase): This would be an in person training to onboard the rest of the agency. This training takes place typically ~2-3 weeks after the stakeholders webinar. Can you please suggest a few dates/times 2 weeks after the stakeholder webinar takes place?

3. Portal Setup

a) Law Enforcement User List: Please fill out the attached spreadsheet for everyone that should have access to Portal. Next to each user, can you please indicate "Admin" or "User"? Admins will have the ability to add new users and toggle on/off video request feature and posting privileges for the users at the agency.

b) Browser Compatibility: A reminder that portal is only compatible with Chrome [google.com] or Firefox. Internet Explorer is not compatible. I will mention this during the trainings.

c) Beats Map: If you decide that assigning each user to a beat/assigned area would be appropriate, please send over a beats map (PDF, Shapefile, or ESRI files are fine as long as highways, street names are clear so we could draw the boundaries) so that we can create them for your Portal so that your users can assign themselves to a district. When a user assigns themselves to a beat, they will receive email alerts whenever a "Neighbor" posts a crime in that beat.

Law Enforcement User List (4).xlsx 18.4 KB

Subject: Ring LE Portal Training
From: Jason Langford <JLangford@ontariopolice.org>
Date: 9/5/19, 3:57 PM
To: Detective Bureau E-mail <DetectiveBureau@ontariopolice.org>
CC: "William C. Russell" <WRussell@ontariopolice.org>, Nino Dionaldo
<NDionaldo@ontarioca.gov>

The Ontario Police Department recently partnered with Ring Doorbell to assist with our investigative and crime suppression efforts. Ring has granted us access to their Law Enforcement portal and will be conducting in-person training for detective personnel on Thursday 9/12. The training will take place in the EOC at the City Hall Annex in two separate sessions; 10-1100 hours and 11:30-12:30 hours. Each session will be limited to 12 detectives given the number of available computer terminals. We would like for each detective to attend this training as it is a great investigative tool that can assist you with your cases. Please respond with your preferred time and we'll try and accommodate. First come first serve fellas. Let me know if you have any questions. Thanks!

Very nice speaking with you today. Below is a recap of what we spoke on and the few action items I need.

1. 45 min Stakeholders Webinar (The Soft Launch Phase) : This is me "training the trainers" to get the stakeholders to understand the Ring Portal so they can determine the best way to roll out the tool within their units. We suggest that 1-2 reps from each group below attend this webinar as they will be the go-to person if anyone within their units have questions. They will also be the early adopters who can start using the Portal after the webinar so they could speak about their use case/experience with the Portal and perhaps share success stories (if any) during the in person training. Can you please suggest a few dates/times within the next week or two?

a) Community Outreach: Community Service Officer/Community resource officer, those who attend HOA neighborhood watch meetings

b) PIO/Social Media Committee

c) Investigations/detectives

d) Crime analysts

e) Road Patrol Officers

2. 45 min In Person Training (The Hard Launch Phase): This would be an in person training to onboard the rest of the agency. This training takes place typically ~2-3 weeks after the stakeholders webinar. Can you please suggest a few dates/times 2 weeks after the stakeholder webinar takes place?

3. Portal Setup

a) Law Enforcement User List: Please fill out the attached spreadsheet for everyone that should have access to Portal. Next to each user, can you please indicate "Admin" or "User"? Admins will have the ability to add new users and toggle on/off video request feature and posting privileges for the users at the agency.

b) Browser Compatibility: A reminder that portal is only compatible with Chrome [google.com] or Firefox. Internet Explorer is not compatible. I will mention this during the trainings.

c) Beats Map: If you decide that assigning each user to a beat/assigned area would be appropriate, please send over a beats map (PDF, Shapefile, or ESRI files are fine as long as highways, street names are clear so we could draw the boundaries) so that we can create them for your Portal so that your users can assign themselves to a district. When a user assigns themselves to a beat, they will receive email alerts whenever a "Neighbor" posts a crime in that beat.

Hi Sgt Russell,

Thank you for your interest in doing a PR to announce OPD's partnership with Ring.

Firstly, before training can begin, Ring will send out a standard in app announcement message (see below) to inform Ontario Neighbor's app users that you have joined the platform and set the stage for your participation on the app. Please approve this before the first webinar date.

Additionally, below are the PR materials to help you get started and well as guidelines on responding to press/media inquiries.

Ring's PR team is copied on this email (via media@ring.com) please be sure to connect with us if you receive any media inquiries.

Neighbors App PR Materials Folder ([click to access \[dropbox.com\]](#)) includes:

- Initial social media announcement templates (a great tool for informing the community)
- Key Neighbors App talking points
- Hi-res Neighbors App imagery

Guidelines

- All public facing messaging and materials that mention Ring and/or the Neighbors App must be approved by both parties
- Media inquiries and public requests for information about Ring or the Neighbors App should be flagged with both parties by contacting Ring's PR team via media@ring.com
- Per Ring's company policy, we do not publicly disclose any app user or device owner data

Neighbors Portal back-end features should not be shared with the public, including the law enforcement Neighbors Portal on desktop view, the heat map, sample video request emails or the video request process itself as they often contain sensitive investigative information

Please be sure to connect with myself as well as Ring's PR team (via Media@ring.com) regarding any inbound media inquiries.

Please reach out with any questions!

Thank you,

Angela Kang

Subject: Ring Doorbell Announcement

We begin our webinar training with Ring tomorrow and they need approval to send out the attached announcement to the Ring users in our area. I don't see any issues with it but I wanted you to be on-board with it. They have also sent over a press pack which has logos and talking points for future announcements. I have shared these with Dan Bell and Tom Lorenz. My plan is to coordinate with them so the messaging comes from the City and the PD. I figure that will reach a larger crowd. I will review all announcements with you before we send anything else out. Let me know if you have any concerns.

Good Morning Everyone!

We recently signed an MOU with Ring Doorbell to have access to their Law Enforcement portal. The next step in the process is to have lead department stakeholders participate in a 45 minute webinar with a Ring representative to familiarize ourselves with the portal and its capabilities. Afterwards, Ring will

send out a representative to conduct in-person training sessions with our assigned personnel who will be accessing the system. I would like to set up the webinar in the main Detective Bureau Conference Room for Thursday August 15th at 10:00 am. I will follow-up with a calendar invite and provide the necessary details to Ring so they can build you into the system prior to the webinar. If you cannot attend, please let me know who you would like to send in your place. If you have a Windows based laptop feel free to bring that with you during the webinar as it may be beneficial as we navigate through their portal. Let me know if you have any questions. Thanks!

Please approve this before the first webinar date.

Additionally, below are the PR materials to help you get started and well as guidelines on responding to press/media inquiries.

Ring's PR team is copied on this email (via media@ring.com) please be sure to connect with us if you receive any media inquiries.

Neighbors App PR Materials Folder (click to access [[dropbox.com](https://www.dropbox.com)]) includes:

- Initial social media announcement templates (a great tool for informing the community)

- Key Neighbors App talking points

- Hi-res Neighbors App imagery

Guidelines

All public facing messaging and materials that mention Ring and/or the Neighbors App must be approved by both parties

Media inquiries and public requests for information about Ring or the Neighbors App should be flagged with both parties by contacting Ring's PR team via media@ring.com

Per Ring's company policy, we do not publicly disclose any app user or device owner data

Neighbors Portal back-end features should not be shared with the public, including the law enforcement Neighbors Portal on desktop view, the heat map, sample video request emails or the video request process itself as they often contain sensitive investigative information

Please be sure to connect with myself as well as Ring's PR team (via Media@ring.com) regarding any inbound media inquiries.

Please reach out with any questions!

Thank you,

Angela Kang

Chief Williams, Thank you again for gathering your team to learn about Rings approach to reducing crime in communities.

As demonstrated, our platform combines the deterrent value of a visible security system (devices) with the power of an actively engaged community (via a free app) to reduce criminal activity and to help solve open investigations.

Neighbors Portal is law enforcements access to our platform. Portal highlights include:

- No Cost - Neighbors Portal is free to Law Enforcement
- Community Engagement - LE's ability to join the conversation (about posted video or in response to posted comments).
- Alerts - You may post Alerts which are highly relevant (proximity) to the recipient.
- Video Request - You may request video from Ring device owners relevant to active investigations.

As you review the attached MOU, or if others will be charged with that task, please feel free to contact me at any time. My cell number is 949-690-6979. If there are changes necessary, I can assist with the business language before we submit the document to legal for final approval.

Again, thank you for meeting with me. I look forward to working with you and Ontario PD soon.

This a good tool for our investigators and also good press. You guys good with the "joint press release stuff"?

Let me know and I will move forward.

Thanks

Chief Williams, Thank you again for gathering your team to learn about Rings approach to reducing crime in communities.

As demonstrated, our platform combines the deterrent value of a visible security system (devices) with the power of an actively engaged community (via a free app) to reduce criminal activity and to help solve open investigations.

Neighbors Portal is law enforcements access to our platform. Portal highlights include:

- No Cost - Neighbors Portal is free to Law Enforcement
- Community Engagement - LE's ability to join the conversation (about posted video or in response to posted comments).
- Alerts - You may post Alerts which are highly relevant (proximity) to the recipient.
- Video Request - You may request video from Ring device owners relevant to active investigations.

As you review the attached MOU, or if others will be charged with that task, please feel free to contact me at any time. My cell number is 949-690-6979. If there are changes necessary, I can assist with the business language before we submit the document to legal for final approval.

Again, thank you for meeting with me. I look forward to working with you and Ontario PD soon.
